

SNAARMAARWAAR

Stage plan / technical rider

- | | | |
|----|-----------------|------|
| 1. | Vocal | SM58 |
| 2. | Mandola | XLR |
| 3. | Mandolin | XLR |
| 4. | Guitar | XLR |
| 5. | Loops | XLR |

Notes on Sound:

Powerful guitar sound with sub bass. Also keeping enough bass (not sub) on mandola. Mandoline can be cut at 150Hz or higher (depending on the venue). Sometimes a 200Hz notch on mandoline can be useful (Resonating lowest string). Loops should be powerful but not too much.
